Subject: HWL's UK versus Norway
I am somewhat disturbed by the articles I read about "tobacco industry fuming in UK over new HWL's".If I am not totally mistaken, the UK has agreed to adopt EEC HWL's.

If so (Micheals, both of you, pls confirm), let us make sure that we inform relevant political and media contacts in Norway that UK is complying with EEC rules, NOT THAT "YET ANOTHER MARKET HAS TAKEN STRICTER HEALTH WARNING LABELS (AND NORWAY SHOULD DO THE SAME...)".
Regards, Stig
